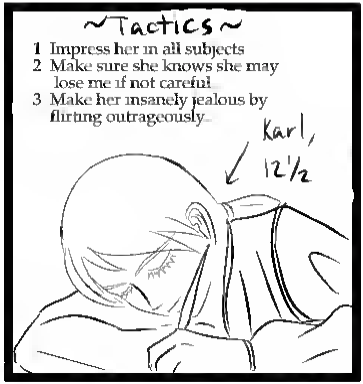
Karl's Book

How to get into Adrians pants.
TOP SECRET



~Tactics~
1 Impress her in all subjects
2 Make sure she knows she may lose me if not careful
3 Make her insanely jealous by flirting outrageously
Karl, 12½

Gotta drink more milk. Women like taller men. Father says
Adrian, 5'8"

Next day
Karl there's no need to write out a manifesto to get into my pants
Here's a pair but they won't fit you until you're a lot taller
Really, Adrian, do you have to remind me?!?

At The Next Prince's Ball . . .

See, Adrian, there's always repercussions for flaunting society's rules
Crown Prince Phillipe, 18, takes after mother's side
Goodbye, bro
Back off! The first lady to last 10 minutes against me in a match gets one of my brothers.
Nice knowing you too, Phil
Secret Prince Frances, who took the precaution of dressing entirely different from his brother as he looks exactly like his twin (didn't work)
The prince's ball is now a contest to see who can get to a prince first. You've thrown your sons into a blood bath.
And look what my delicate flower has to do
Crazy ladies
Princess Charlotte Age 10, a real good dweb
drool
Oh please, Karl, they're your sons too. If you had just asked me to dance quickly none of this had to happen

Thank you for reading the series to the end. It's my second ever completed series and as usual, I learnt alot by drawing it. There's a lot of history I threw out of the story to make it more concise otherwise I'd bore you with details.
I'll post some of my better doodles about them, and life in "happily ever after"

Perhaps one day I'll draw out the rest of the stories involving the Reis and Gryff lines of my fictional kingdom of Astoria (get it? I'm so sorry, I have an awful sense of humour).

If you have time, please check out my new fantasy work (updated every 2 weeks) which is Mary Lam's (twisted) interpretation of the Lancelot-Grail cycle. I apologize in advance to the serious scholars like Dr Lacy and the orginal authors like Mapp and Marie of Brittany, etc

Works twisted by Mary Lam:
Sleeping Beauty (Rota)
Cinderella (Fragile)

and now:
Lancelot-Grail Vulgate Cycle
(Il Chevalier Mesfais,
The Knight who Sinned)
